Objective

I'm looking for an opportunity to join a team of developers, and, with a team spirit and good communication, apply all my knowledge in technologies, in order to add more value to the products produced by the hiring company and increasingly improve my technical knowledge.

Education

2022 – Current   **Technologist in Systems Analysis and Development**
UNIAVAN - Centro Universitário Avantis

Professional Resume

- Proactive person, always seeking to study and improve myself with more courses on different platforms, even attending college in "Systems Analysis and Development".

- Focused on the world of RPA development using agile methodologies for better and faithful performance of UiPath and MyAthus technologies, also using the VB.net and/or C# languages including the relational language SQL (SQL Server), to add value to development.

- Communicative person, easy to work in a team.

- Advanced knowledge of the English language and Fluent of Portuguese.
